Lo's Enviro-Pro Appoints Prof. Bai Qingzhong as Non-Executive Director

AIMS TO BOOST MEDICAL WASTE TREATMENT BUSINESS IN CHINA

(Hong Kong, 23 July 2007) – Lo's Enviro-Pro Holdings Limited ("Lo's Enviro-Pro" or the "Group") (stock code: 309), a professional medical waste treatment enterprise in China, announced today that it has appointed Prof. Bai Qingzhong as a Non-Executive Director of the Group.

Prof. Bai was a deputy director of the Department of Environment Science and Engineering of Tsinghua University. Currently, he is President of the Beijing Guohuan Environment Engineering Design Institute and Secretary of the Committee of Solid Wastes Disposal and Utilization of China Environment Protection Association. He has been involved in environmental protection work for more than 30 years and was named an "Outstanding Technological Researcher" by the Chinese Society for Environmental Sciences. He completed various major government technological research projects and won numerous awards for his work. He had undertaken researches in relation to planning of management of hazardous wastes and related decision support information system for the State, hazardous wastes landfills in Shenzhen and their designs and technological standard of environmental engineering services, etc. He is renowned in the field of environmental protection in Mainland China for his in-depth study on treatment of urban refuse and medical and hazardous wastes.

Dr. Lo Kou Hong, Chairman of Lo's Enviro-Pro, said, "We are delighted and honoured to have Prof. Bai as a Non-Executive Director. Prof. Bai is a keen supporter of environmental protection work and has extensive experience in waste treatment research. Riding on his strong connection and network in the area of environmental protection in China, Prof. Bai will provide the Group with valuable advice and guidance, subsequently enhancing its corporate governance. With the joining of Prof. Bai, we are confident to see Lo's Enviro-Pro to become the largest medical waste treatment group in the country."

About Lo's Enviro-Pro Holdings Limited

On top of 31 years of experience in cleaning and pest-control services in Hong Kong, Lo's Enviro-Pro Holdings is diversifying into the specialized area of medical waste treatment in China to bask in the country's rising awareness and urgent need for environment protection. The Group adopts a patented steam-sterilization technology from Canada, which is currently the only approved non-incineration technology for treatment of medical waste, to process the fast growing medical waste in China. In 2002, the Group's main subsidiary achieved certification in ISO 9001 Quality Management System, ISO 14001 Environmental Management System, OHSAS 18001 Occupational Health and Safety Management System etc.
